

# Kernmantle Rope - R11 & R13

Saferight manufactures 11mm and 13mm kernmantle rope at its purpose built facility in Perth. The rope is ideal for use in abseiling, rappelling, confined space rescue, tower rescue and for all rope access applications. The rope offers excellent abrasion resistance and has minimal elasticity, and used by rescue squads throughout the country.

## Key Features

- High strength, low stretch
- Minimal elasticity (2.6% at 80kg)
- Anti-twist characteristics
- Colourfast & UV resistant
- Standard colour black outer sheath

## Materials & Construction

- Inner sheath 11mm Rope: 16 polyamide strands
- Inner sheath 13mm Rope: 24 polyamide strands
- Inner sheath white polyamide
- Outer sheath coloured multifilament polyamide

## Testing & Quality Control

- Static Strength >32kN (3200kg)
- 100% visual inspection
- Tested to AS4142.3
- Saferight is an ISO 9001 certified company
