

Retracting Lanyard - RL

Retracting lanyards are ideal for many fall arrest applications where the anchor point is overhead or where there is a need to reduce fall distances. They act as an inertia device, similar to a seat belt, and lock up immediately in the event of a fall, reducing both fall distance and forces.

Key Features

- Locks up within 50mm in the event of a free fall
- Built in fall indicator and shock absorber (not all models)
- Different style and material hooks available
- 2.5 meters in length
- Triple action, and double action hooks are available

Materials & Construction

- Steel triple action karabiner
- Double action alloy snap hook as standard
- 46mm fluorescent yellow webbing
- Weight 1.2kg

Testing & Quality Control

- Meets requirements of AS/NZS 1891.3
- 100% visual inspection
- Saferight is an ISO 9001 certified company
