

Saferight Training Courses

Confined Space Entry (2 Day Course)

NATIONALLY RECOGNISED COMPETENCIES
RIIOHS202A — Entre and Work in Confined Spaces
MSAPMPER205B — Enter Confined Space
MSAPMPER200B — Work in Accordance with an Issued Permit
MSAPMOHS217A — Gas Test Atmospheres

Overview

This course is aimed at ensuring the health and safety of personnel who have to undertake work activities within a confined space.

The course provides personnel with information on their responsibilities with regard to Duty of Care, the Occupational Health and Safety Act and Mine Safety and Inspection Act. It provides a guide to planning and entering confined spaces for employees and contractors by utilising the risk assessment process to identify hazards and applying the appropriate controls using Hierarchy of Control. It informs persons of the requirements in rescue, training, isolation, ventilation, atmospheric testing, standby duties and entry permits to the confined space.

This course comprises an equal theory-practical component ensuring all attendees actively participate in confined space entries. This course includes more extensive scenarios and Gas Test Atmosphere requirements.

Saferight is a Registered Training Organisation (Provider Number 5722) and offers a range of courses in industrial safety. For more information on courses, please call our Training Co-ordinator on 1800 352 335 or email training@saferight.com.au.

Key Outcomes

Key areas covered include:

- Definitions
- Confined Space Hazards and Controls
- Standby Person (Roles and Responsibilities)
- Respiratory Protection
- Atmospheric Monitoring Requirements
- Risk Assessments and Hierarchy of Control
- Ventilation
- Checks to be Performed
- Permits
- Lifelines and Harnesses
- Safe Work Procedures
- Entry Permits
- Rescue Procedures
