

# Saferight Training Courses

## Confined Space Entry

**NATIONALLY RECOGNISED COMPETENCIES**  
RIIOHS202A – Enter and Work in Confined Spaces  
MSAPMPER205B – Enter Confined Space  
MSAPMPER200B – Work in Accordance with an Issued Permit

### Overview

This course is aimed at ensuring the health and safety of personnel who have to undertake work activities within a confined space as defined by AS/NZS 2865:2001.

It provides personnel with information on their responsibilities with regard to Duty of Care, the Occupational Health and Safety Act and Mine Safety and Inspection Act. It provides a guide to planning and entering confined space entries for employees and contractors by utilising the risk assessment process to identify hazards and applying the appropriate controls using the Hierarchy of Control. It informs persons of the requirements in rescue, training, isolation, ventilation, atmospheric testing, standby duties and entry permits to the confined space.

This course comprises an equal theory-practical component ensuring all attendees actively participate in confined space entries.

Saferight is a Registered Training Organisation (provider number 5722) and offers a full range of courses in industrial safety. For more information on courses, please call our Training Co-ordinator on 1800 352 335 or email [training@saferight.com.au](mailto:training@saferight.com.au).
