

Saferight Training Courses

Operate Breathing Apparatus Open Circuit

NATIONALLY RECOGNISED COMPETENCIES
PUAFIR207B – Operate Breathing Apparatus – Open Circuit
PUAFIR201B – Prevent Injury
PUATEA001B – Work in a Team

Overview

This Course is aimed at ensuring the health and safety of personnel who have to undertake work activities within an irrespirable atmosphere.

The course provides personnel with information on their responsibilities with regard to the Occupational Health and Safety Act and Mine Safety, Inspection Act and Duty of Care.

It provides a guide to maintaining and operating an open circuit breathing apparatus, correct testing and donning procedures as per AS/NZS 1715 and 1716. It informs persons of the requirements of when and where breathing apparatus is required as respiratory protection, and concluding operations of cleaning and reinstating breathing apparatus. (Further training required if rescue operations are to be undertaken).

Saferight is a Registered Training Organisation (Provider Number 5722) and offers a range of courses in industrial safety. For more information on courses, please call our Training Co-ordinator on 1800 352 335 or email training@saferight.com.au.
