

Saferight Training Courses

Work Safely Within The Construction Industry

NATIONALLY ACCREDITED COURSE
CPCCOHS1001A - Work Safely Within The Construction Industry

Overview

This 4 hour course is a Nationally Accredited course in Work Safely Within The Construction Industry (White Card) which is compulsory for anyone working or installing on a construction site. The course can be conducted at our custom built training facility in Belmont, Perth or at a location of your choice. This course became mandatory in January 2007 for workers who have to access and work on Building and Construction sites in Western Australia.

The focus of this training is on what workers in the building and construction industry need to know to ensure their safety and the safety of others on a building site. The content will provide participants with knowledge in legislation and compliance in regard to the work, worker and workplace considerations for achieving safety.

Theory and practical components combine to cover areas such as roles and responsibilities, risk management, hazard identification and control, personal protective equipment (PPE), accident prevention and equipment/tools considerations.

Saferight is a Registered Training Organisation (Provider Number 5722) and offers a range of courses in industrial safety. For more information on courses, please call our Training Co-ordinator on 1800 352 335 or email training@saferight.com.au.
